

## REPORT ON COLOUR DAY

A very important part of learning during kindergarten years is identification and recognition of colours.

The Pre-Primary Section of The Bishop's Co-Ed School, Kalyani Nagar, celebrated a lively and vibrant "Colour Day," on 19<sup>th</sup> of January 2024. The students and teachers' embraced the spirit of joy and creativity through a kaleidoscope of colours .

The children dressed in vibrant colours came in full attendance. They also brought colourful food items in their tiffin.

To keep the enthusiasm going the teachers conducted various activities with the little ones such as hand painting, vegetable printing, finger painting, paper tearing / sticking, collage making and rainbow crafts.

These activities not only enhanced their motor skills but also fostered a love for artistic expression. Badges, popsicle sticks and colourful caps were given to the children as a takeaway.

Colour Day was not only a visually appealing day but also a thoughtful approach to integrating learning with fun. The event successfully achieved its objective of reinforcing educational concepts, fostering creativity, and promoting a sense of togetherness among the young learners, setting a positive tone for their educational journey.
