## Second Shift

### A Report on World Environment Day Celebration

*"Be the change, you wish to see in the world."*

*Mahatma Gandhi*

World Environment Day is celebrated every year on the 5<sup>th</sup> of June. In an effort to make a small change and spread awareness of the importance of conserving the environment, the teachers and children of Classes 1, 2 and 3 of the Second Shift observed Environment Day on the 8<sup>th</sup> of June' 2022.

The objective of this celebration was to instil in the little minds the need to save our environment from the different kinds of pollution and to make planet Earth a cleaner, greener and safer place for all to live.

The children of Classes 1 and 2, under the able guidance of their teachers, prepared beautiful drawings with 'Environment' being the theme. Slogans like 'Save Mother Earth' and 'Plant more Trees' etc. were some catchy captions written on the drawings. The children of Class 3 were taught to make carry bags out of newspaper and were enlightened about the harmful effects of the usage of plastic bags. All the children participated enthusiastically.

This initiative would not have been possible without the support and guidance of our school Principal, Mr. Joel Edwin, Supervisor of the Junior School, Miss Mayura Barsay and all the teachers.

The celebration came to an end with the teachers and children pledging to continue in their efforts to make a small difference.
