

REPORT ON GENERAL KNOWLEDGE QUIZ COMPETITION(2023-2024)

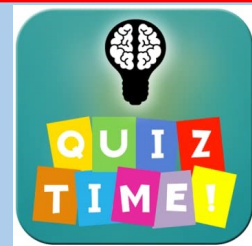

“Knowledge has a beginning but no end.”

Competitions offer an opportunity for students to showcase their intelligence and compete with their peers. Keeping this in mind an Inter-Class General Knowledge Quiz Competition was organised for classes 2 to 5 in the school auditorium on the 27th and 28th of June, for the academic year 2023-2024. The competition enabled the students to test their knowledge and intellectual abilities.

The stage was aptly decorated by the Art Department and the Quiz Masters effortlessly took the participants through all the rounds.

An elimination round was conducted in the class, during the month of April, that gave all the children a chance to participate. Based on this performance two students from each class were shortlisted for the final round.

All the questions were carefully crafted to create a challenging atmosphere. The Pictureka Round got the children to put on their thinking caps to identify, memorize and recall the logos displayed on the screen. The Audio and Visual rounds brought life to the quiz and were enthusiastically answered by the participants. The Mixed Bag and Spin the Wheel rounds were exciting and enhanced eagerness among the students, thereby achieving a major objective to broaden their horizons and discover something new. The students displayed their critical decision-making skill in the Double Trouble Round which was an optional round. The audience was attentive throughout the quiz and enjoyed it to the fullest.

The event was a huge success and concluded with the students being thankful to the school for giving them the platform to grow in their knowledge.
