

## CLASS 3 – SCIENCE EXHIBITION

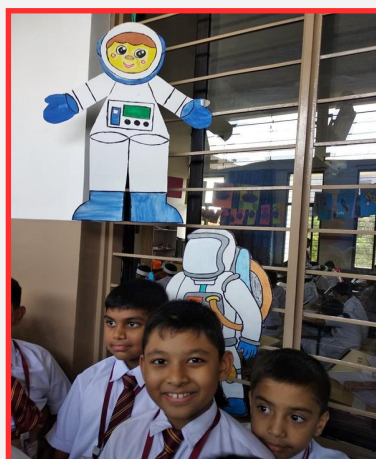

**When you look at the stars and the galaxy, you feel that you are not just from any particular piece of land, but from the Solar System.**

**-Kalpana Chawla**

On 23<sup>rd</sup> June 2023 , the students of Class 3 of the First and Second shift organized a Science Exhibition on the topic 'The Solar System'. The exhibition aimed to display the comprehension and artistic capabilities of the students. The corridor of the fourth floor (South Wing) came alive with striking stars, comets, planets, astronauts, and spaceships. The attractive models prepared by the children, depicting the Solar System were displayed beautifully for all to see. Students made 3D models using plaster of paris , cardboard, newspaper, rubber balls and animal figurines.

What made it more encouraging and exhilarating for the children, was the presence of our dear Heads – Mr.Eates , Mrs.Dunn, Mr.Rodricks and Mrs. Dinger. They received plaudits for their creativity from children of other classes, teachers and ofcourse our supportive Heads.
