JUNIOR SCHOOL
Report on A Visit to the MG Showroom
2023 - 2024

Class: 3

Date: 9, 10, 14 August & 13th September 2023

The students of class 3 had the pleasure of visiting the M G showroom to explore their latest range of vehicles. As soon as they entered the car showroom, the students couldn't contain their excitement. They had been eagerly anticipating this field trip and were determined to make the most of it.

We were greeted by their team and given a warm welcome. The sleek, modern design of the cars mesmerized the boys. We were then given a tour of the place, but the real fun began when the students got a chance to climb inside some of the cars themselves. They took turns sitting in the driver's seat, checking out the dashboard and imagining what it would be like to go for a spin in one of those incredible machines. Some of them even pretended to rev the engine, imagining the sound of the powerful motor roaring to life.

The students struck up conversations with the friendly salespeople and learned about the latest advances in automotive technology, from hybrid engines to self-driving cars, and marveled at the incredible feats of engineering that went into making each vehicle. They discussed about traffic rules and safety while driving.

There was a colouring contest 'Painter Babu' organized for the students. The boys participated with enthusiasm and coloured the pre drawn picture given to them. Once they finished colouring they got their photos clicked at the photo booth. The boys thoroughly enjoyed the activity.

Finally, as the time to leave the showroom drew near, the students gathered one last time to share their favorite moments from the field trip. On their way out the boys were given a sweet treat -muffin. It was a truly inspiring experience, and the children would always treasure the memories of this fun-filled day.
