

## THE BISHOP'S SCHOOL, CAMP- JUNIOR SECTION

### Trinity Spoken English Examination-2023-24

Clarity of thought, speech, fluency, and the ability to communicate effectively are the hallmarks of a good speaker. The Trinity Spoken English Examination classes are programmed to help the students develop their communicative skills so that they are confident and comfortable with the language.

This academic year, 108 students from the first and second sessions of The Bishop's school camp were enrolled for grades 1, 2 and 3. The candidates were trained with the curriculum designed for each grade, with special emphasis on training the students to use the lexicon and language appropriate to the grades in accordance with the curriculum. This was done under the able guidance of Mrs. N. Sayed, Mrs. A. Dsouza, Mr. S. Roberts, Mrs. N. Belsher, Mrs. S. Bastian, Mr. A. Barnabas, Mrs. J. Baena and Mrs. M. James. The training sessions commenced in the month of September till the 16<sup>th</sup> of January 2024.

This year, The Trinity College examiners from across the globe took the online platform and assessed the students for various grades. The examiners were Mrs. Angela Whitehead, Mr. Christopher O'Neill, Mrs. Valerie Lambert Torres, and Mr. George Lampropoulos. The examiners were most impressed by the outstanding performance, impeccable behavior, and vocal proficiency the students exhibited. The examiners were cooperative and helped put the children at ease while enjoying the session as well.

The results were outstanding. Out of 108 candidates, 83 candidates secured distinction, 19 merits, and 4 passes and 2 students were absent. All the candidates were radiantly happy to have stood their ground and got their viewpoints across in a confident and deliberate manner. The examinations were conducted from January 17<sup>th</sup>, 2024, to January 19<sup>th</sup>, 2024.

The end-to-end digital assessment utilizing technology to deliver exams as normal was convenient for us and the examiners, with the session conducted smoothly and without hassle. Authentication of technologies and web cameras ensured that the correct candidates took the exams online. The digital assessment allowed flexible delivery for each candidate.

The technological assistance from the school ensured a smooth examination session. This new method of digital examination helped the students understand the importance of technology. In conclusion, it was a memorable learning experience that has tremendously benefited the students.
