

The Bishop's Co-Ed School, Undri

REPORT ON VIOSA CAREER COUNSELLING -2024

CLASS VIII

VIOSA is the Ed Tech industry's first unified technology platform that coaches students in acquiring sector-based competencies, help them build their professional profiles and guide them to achieve their aspirational employment.

The VIOSA Career Counselling Session was held on 2nd February, 2024 from 8:30 a.m. to 2:30 p.m. in the B4 Conference room at staggered timings.

This session was based on an AI assisted career assessment and planning aptitude test that was conducted in the school on 24th January, 2024.

The 21 students who participated, had to answer questions which were directed to know their areas of interest. Based on the answers to the questionnaire a report was generated which helped to analyse and prepare a good career path for the students.

The objective of this session was to guide and set up goals earlier in life and save on time and money.

It was a fairly good insight for a career choice with great vision and methodical review to get to the required career path. It provided career options of more than four thousand careers to choose from.

The response of the parents and students was amazing we had satisfied and happy parents and students. It was an excellent session; parents were satisfied with the report. It helped parents to clear their doubts, sitting with the counsellors diffused confusion if any with their comprehensive data backed with scientific analysis.

Overall the session acted as a guideline for the class 8 students to opt for the correct choice of subjects.
