

THE BISHOP'S SCHOOL, CAMP
PRE-PRIMARY SECTION
REPORT ON DOCTORS' DAY

In India, National Doctors' Day is celebrated on 1st July on the birth Anniversary of Dr. Bidhan Chandra Roy. National Doctors' Day is observed to honour all doctors and their contribution toward the health care of all citizens.

We were gratified to have Doctor Dhanish Parekh, who is a Neurosurgeon, as our Guest Speaker.

Currently, Doctor Parekh is working as a Neurosurgeon at BJ Medical College and Sassoon General Hospital, Pune since February 2023. Doctor Parekh is a Member of the Mid Western Chapter of Neurological Surgeons, India.

The Pre-Primary section celebrated Doctors' Day with eagerness and zeal and the guest speaker Dr. Parekh was felicitated by our Headmistress Ms. Mayura Barsay.

Doctor Parekh educated the children on the importance of the helmet as the brain is a vital organ of our body. Doctor gave a simple yet meaningful talk to the children on how to care for oneself and also gave a demo on how to wear a helmet correctly.

Many children were eager to volunteer as doctor wanted them to have a practical on how to wear a helmet. He also told them about the adverse effects of not wearing helmets. Doctor even spoke about the use of cell phones, tablets and the computer and limiting screen time for children as it has many ill-effects on the brain.

The children enjoyed the session and the programme concluded with a vote of thanks.
