

SUCCESS IS THE SUM OF SMALL EFFORTS

Pushkar Bhandari, a 7th standard student of the Bishop's Co Ed. School, Undri, has secured the 3rd runners up position at the State Level SIP Abacus Competition. He has completed all the 11 levels of Abacus. Pushkar was felicitated in Kharghar (Mumbai) for the same on 28th August, 2022. He has also stood 2nd at the Regional Level SIP Abacus Competition. This journey of his with Abacus began when he was in class 2.

Pushkar is indebted to his mentor Mrs. Seema Vij from Mumbai, who trained him online during the Pandemic. His achievements don't end here; he is a green belt in Karate and will be travelling to Delhi in the month of November for the National Competition.

Pushkar enjoys the game of Cricket and also is interested in craft activities. His message to his fellow students is to keep trying and be focussed in whatever you do.

In the coming year, Pushkar aims to compete in the National Abacus Competition. We wish you much success in your future endeavours and pray and hope that you keep the flag of Bishop's flying high forever.
