

REUNION - BATCH OF 1973

The Bishop's School, Camp, invited the alumni batch of 1973 on 28th October, 2023. Returning to the school from all around the world after fifty years, these Bishopites were filled with nostalgia and remembrance of their good old days.

The alumni, some of whom were accompanied by their wives, were greeted with mementos like their respective house caps, school bags, hymn books, ties, badges, a plaque and the history book.

They were welcomed by the Principal, Mr Shayne McPherson, along with the Headmaster, Mr Christopher Gaynor.

After breakfast and catching up on old stories, the alumni were given a tour around the school. The tour was headed by four students of the Junior College- Aashna Aslam, Taher Rangwalla, Asher Rodrigues, and Kartik Mahalungkar along with two photographers A.K Shreya and Akshat Prasad.

The tour began by showing them their old senior school classrooms along the ground floor followed by the Lunn block, that was being built during their last year at Bishop's.

They were then taken to the basketball ground behind the Lunn block which was a new addition, and the then boarders were escorted to see their respective dormitories in Simba block and Jubilee. They were also taken to the Jeejeebhoy ground.

Subsequently, the alumni were led to St. Margaret's ground and Lorna Robert's

auditorium via the bridge, which was all new and fascinating to them. This marked the end of the tour which was followed by a delicious lunch prepared by Mr Joshi and his team in the Harding hall. The lunch included hilarious and heart-warming stories of the experiences of the ex-students at Bishop's. At the end of the event, the alumni gifted a painting of the Last Supper and two angel figurines as a token of their love and gratitude to the school. The arrangement of the entire event was supervised by Mr. Dawson.

Before leaving again, they all looked back at the Bishop's emblem and were only grateful for how the school had embedded the true belief in them 'to be thorough, to be true, and to be men'.
