

THE BISHOP'S CO-ED SCHOOL, UNDRI
REPORT ON EXPERIENTIAL LEARNING ACTIVITY

CLASS IV

"Learning is the product of the activity of learners."-JOHN DEWEY

The Experiential Activity for Class 4 was conducted on the 1st, 5th and 6th of February 2024. The activity commenced with an air of cheer and enthusiasm as the children prepared themselves for a time of learning and fun.

The activity conducted on 1st February 2024 was 'Skeleton Making' where the volunteers explained to the children about the human skeleton and its functions. The children were then guided to make a skeleton of the cut-outs provided to them in the kit. The children patiently followed the instructions given by the volunteers and accomplished the activity of making the skeleton.

The activity conducted on the 5th of February 2024 was 'Pottery'. The potter demonstrated the pot-making process. The children enthusiastically worked with wet clay and shaped the pots with the help of the potter's wheel under the guidance of the potter. This experience taught the children a form of physical therapy and rehabilitation. Pottery helps in relieving stress and anxiety. It also enhances creativity and self-expression.

The activity conducted on the 6th of February 2024 was 'Making a Terracotta figure'. Children made creative figures of elephants and pen stands using terracotta. The experience of holding wet clay and fashioning the shapes with their own hands was phenomenal for the children. They were galvanized by the experience and were eager to share the same with their classmates.

Lasting memories were created through these experiential learning activities. Over all, it was a very joyful time for the children as they were immensely elated with the knowledge they gained through all the experiential learning activities.

Report by:

Mrs. Joyce Kotak

A DISPLAY OF FRAMEWORK OF BONES

ACCOMPLISHED THE ACTIVITY OF SKELETON-MAKING

DEMONSTRATING THE POTTERY TECHNIQUES

CREATIVE MINDS AND HANDS MOULDING THE TERACOTTA

GALVANISING THE EXPERIENCE

THE BOTTOM LINE IS TO HAVE FUN
