

THE BISHOP'S CO-ED SCHOOL, UNDRI

REPORT ON CLASS PICNIC OF UPPER KG

(FIRST AND SECOND SESSION)

VENUE: NATURE'S NEST

“A picnic is a slice of paradise where time slows and worries fade away.”

It was a much-anticipated day for our students of Upper KG of both the First and Second sessions as they eagerly embarked on their first school picnic experience on the 19th of January 2024. A total strength of 335 students of the First and Second sessions were all set to create memories. The air buzzed with excitement, setting the stage for a day filled with laughter, exploration, and the creation of cherished memories. Nature's Nest, located at Urali Kanchan, truly immersed us in the enchanting beauty of nature, surrounded by lush greenery.

We departed from the school campus at 8:30 a.m. after our Headmistress, Mrs. Melissa Fernandes, prayed and set a positive tone for the exciting day. The children sang songs and rhymes on their bus journey till they reached the venue. Upon arrival at Nature's Nest, the children enjoyed a delightful breakfast of idli sambar and poha. The day unfolded with a captivating magic show that left the children in awe. Following the show, the children were then divided into groups for various activities like movie time tractor ride, obstacle walk, hand painting, net climbing and different recreational activities. After these exhilarating activities, students enjoyed lunch which consisted of a variety of their favourite foods and then relaxed for a while. Soon we boarded our buses and left for school at around 3:30 p.m.

In conclusion, the class picnic was a resounding success as the young adventurers positively captured priceless memories during their unforgettable first school picnic experience.
