

THE BISHOP'S CO-ED SCHOOL, UNDRI
JUNIOR COLLEGE

The changing face of psychology.
A webinar in confidence with Dr. V.S. Ravindran

On November 13, 2022, psychology students from class XI and XII were invited to attend a webinar hosted by Delhi Public School, Gurgaon. The webinar was conducted by Dr V.S. Ravindran, a famous educational psychologist and trainer with over 30 years of experience. Over 700 students attended this webinar at a pan India level.

Dr. V.S. Ravindran was able to deconstruct the status of psychology from a stigmatized field to a well-accepted field that informs all the popular narratives of society. He helped students understand that psychology as a field now offers various lucrative options as an applied subject and in research alike.

He also went on to explain to the students that this field requires immense patience and interest. When students have a genuine interest, concern for others, and are able to keep secrets et cetera, then the sky is the limit in this field. Dr V.S. Ravindran addressed the stereotype of psychologists as 'being mind readers' and reiterated that hard work, keen observation and thorough reading would be essential for success.

After establishing that the field of psychology demands a lot of work and energy along with post-graduation education being a must, he gave examples of the work of psychologists in various fields like research, counseling and media.

The session ended with Dr V.S. Ravindran encouraging the students to always aim high and reach the top.
