COLOUR DAY- FRIDAY, 16th SEPTEMBER 2022**

International Colour Day is observed every year on March 21st.

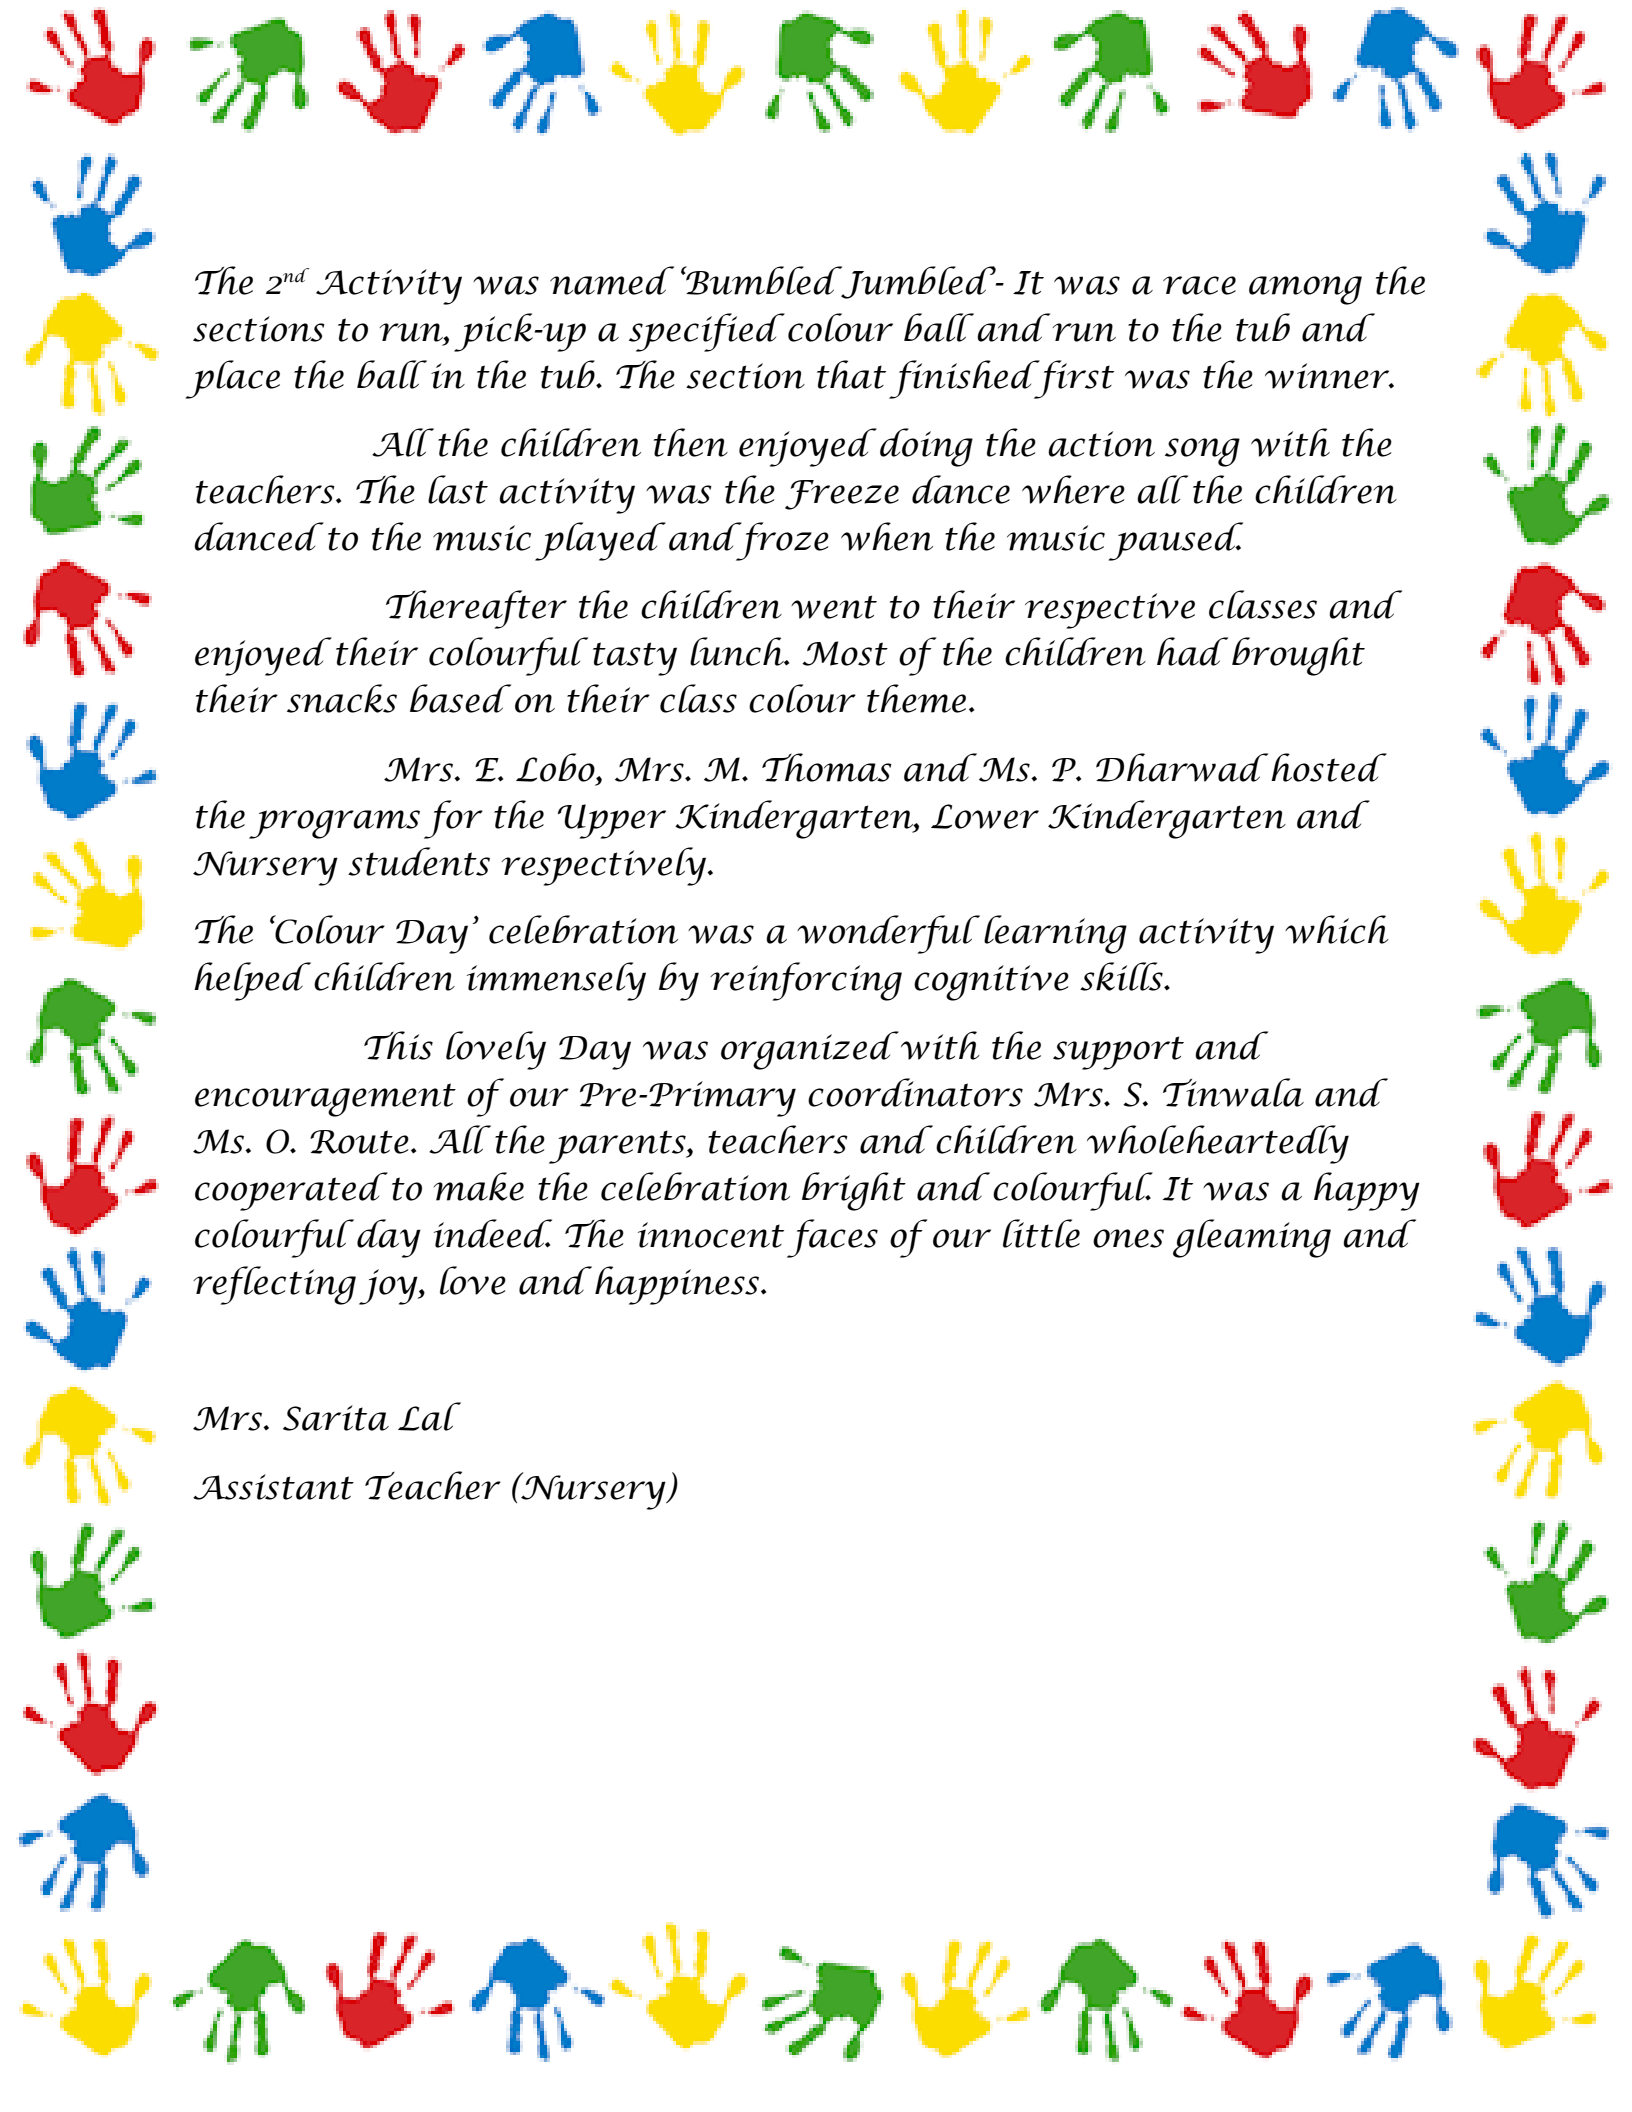

"Colours speak all languages" - Joseph Addison

Our world is filled with colours, A very important part of learning during kindergarten years is identification and recognition of colours.

The Pre-Primary Section at the Bishop's School, Camp celebrated Colour Day on Friday, 16th September 2022. Each Section of the Kindergarten was designated their own colour. The students came dressed in T-shirts of different glowing colours and this reflected just how their spirits are always filled with fun and enthusiasm. The teachers were dressed up in similar colours too.

The Upper Kindergarten, the Lower Kindergarten and the Nursery celebrated 'Colour Day' class wise in the basement of the B.W.Roberts Building.

The teachers and students welcomed our Supervisor Ms. M. Barsay who began the program with a beautiful prayer. The 1st Activity was a musical game-Bombing the Colour- All the children came to the center and danced to the music that was played. When the music stopped the children chose their preferred colour corner. A teacher then called out the colour which was bombed and the children standing in that colour corner were out. The group of children that remained till the end was declared the winner.

The 2nd Activity was named 'Bumbled Jumbled'- It was a race among the sections to run, pick-up a specified colour ball and run to the tub and place the ball in the tub. The section that finished first was the winner.

All the children then enjoyed doing the action song with the teachers. The last activity was the Freeze dance where all the children danced to the music played and froze when the music paused.

Thereafter the children went to their respective classes and enjoyed their colourful tasty lunch. Most of the children had brought their snacks based on their class colour theme.

Mrs. E. Lobo, Mrs. M. Thomas and Ms. P. Dharwad hosted the programs for the Upper Kindergarten, Lower Kindergarten and Nursery students respectively.

The 'Colour Day' celebration was a wonderful learning activity which helped children immensely by reinforcing cognitive skills.

This lovely Day was organized with the support and encouragement of our Pre-Primary coordinators Mrs. S. Tinwala and Ms. O. Route. All the parents, teachers and children wholeheartedly cooperated to make the celebration bright and colourful. It was a happy colourful day indeed. The innocent faces of our little ones gleaming and reflecting joy, love and happiness.

Mrs. Sarita Lal

Assistant Teacher (Nursery)
