

## **TRUE CHAMPIONS, LIKE THE SUN, CANNOT BE ECLIPSED FOR LONG!**

### **[REPORT ON THE ACHIEVEMENTS OF VEDANT KULKARNI OF CLASS 2]**

Benjamin Franklin once wrote that the game of chess "is not merely an idle amusement since life is a kind of chess, in which we have often points to gain, and competitors or adversaries to contend with, and in which there is a vast variety of good and evil events that are in some degree the effects of prudence or the want of it."

It is suggested that playing chess develops foresight, circumspection, perseverance, and sportsmanship.

Today, educators and parents have discovered that chess is a wonderful way to teach young children mathematical concepts and important thinking skills that they can use their entire life. This perception has come true of our youngest chess player of the school, Vedant Kulkarni of grade 2 who has achieved numerous accolades in various chess competitions. It is said that, 'Every chess master was once a beginner', but I say instead, 'This beginner is already a chess master!' At such a young age our champion achiever has won several awards.

We are proud to present the following list of his achievements-
