

# EARTHLIFE DAY

**The Bishop's School, Camp**

***Pre-Primary***

Earth Day is like our planet's birthday. World Earth Day is celebrated on the 22<sup>nd</sup> of April every year. But the Pre-Primary department of the Bishop's School celebrated Earth Day on the 13<sup>th</sup> of April 2022.

We must celebrate the Earth on Earth Day but protect the earth every day.

The little ones were filled with excitement and curiosity as they participated in planting a few seeds along with their teachers. The children were made to understand the importance of Mother Earth and how we must preserve her. We should try and plant trees, keep wet waste and dry waste separate so that we can make way for easy decomposition.

We should try to implement the 3 R rule, that is

Re-use

Re-cycle

Reduce

Children were also educated about the harmful effects of using plastic. A video was shown to the children on the topic “Care for the Earth” which was very informative. The theme for this year was “Invest in our planet”.

**REDUCE**

means to use less and not waste

Turn off the water while you are washing dishes or brushing your teeth.

The little ones were told to be environment lovers and not haters.

The best revolution is the green revolution because it will save our Mother Earth. The children also learnt that planting more trees helps to keep the ecological Balance and protects the environment.
