

THE BISHOP'S SCHOOL, CAMP
REPORT ON WORLD EARTH DAY

'THE MIND STRETCHED BY A NEW EXPERIENCE CAN NEVER GO BACK TO ITS OLD DIMENSION.'

In keeping with the norms of the NEP, 2020 which emphasizes activity-based and practice-oriented learning.

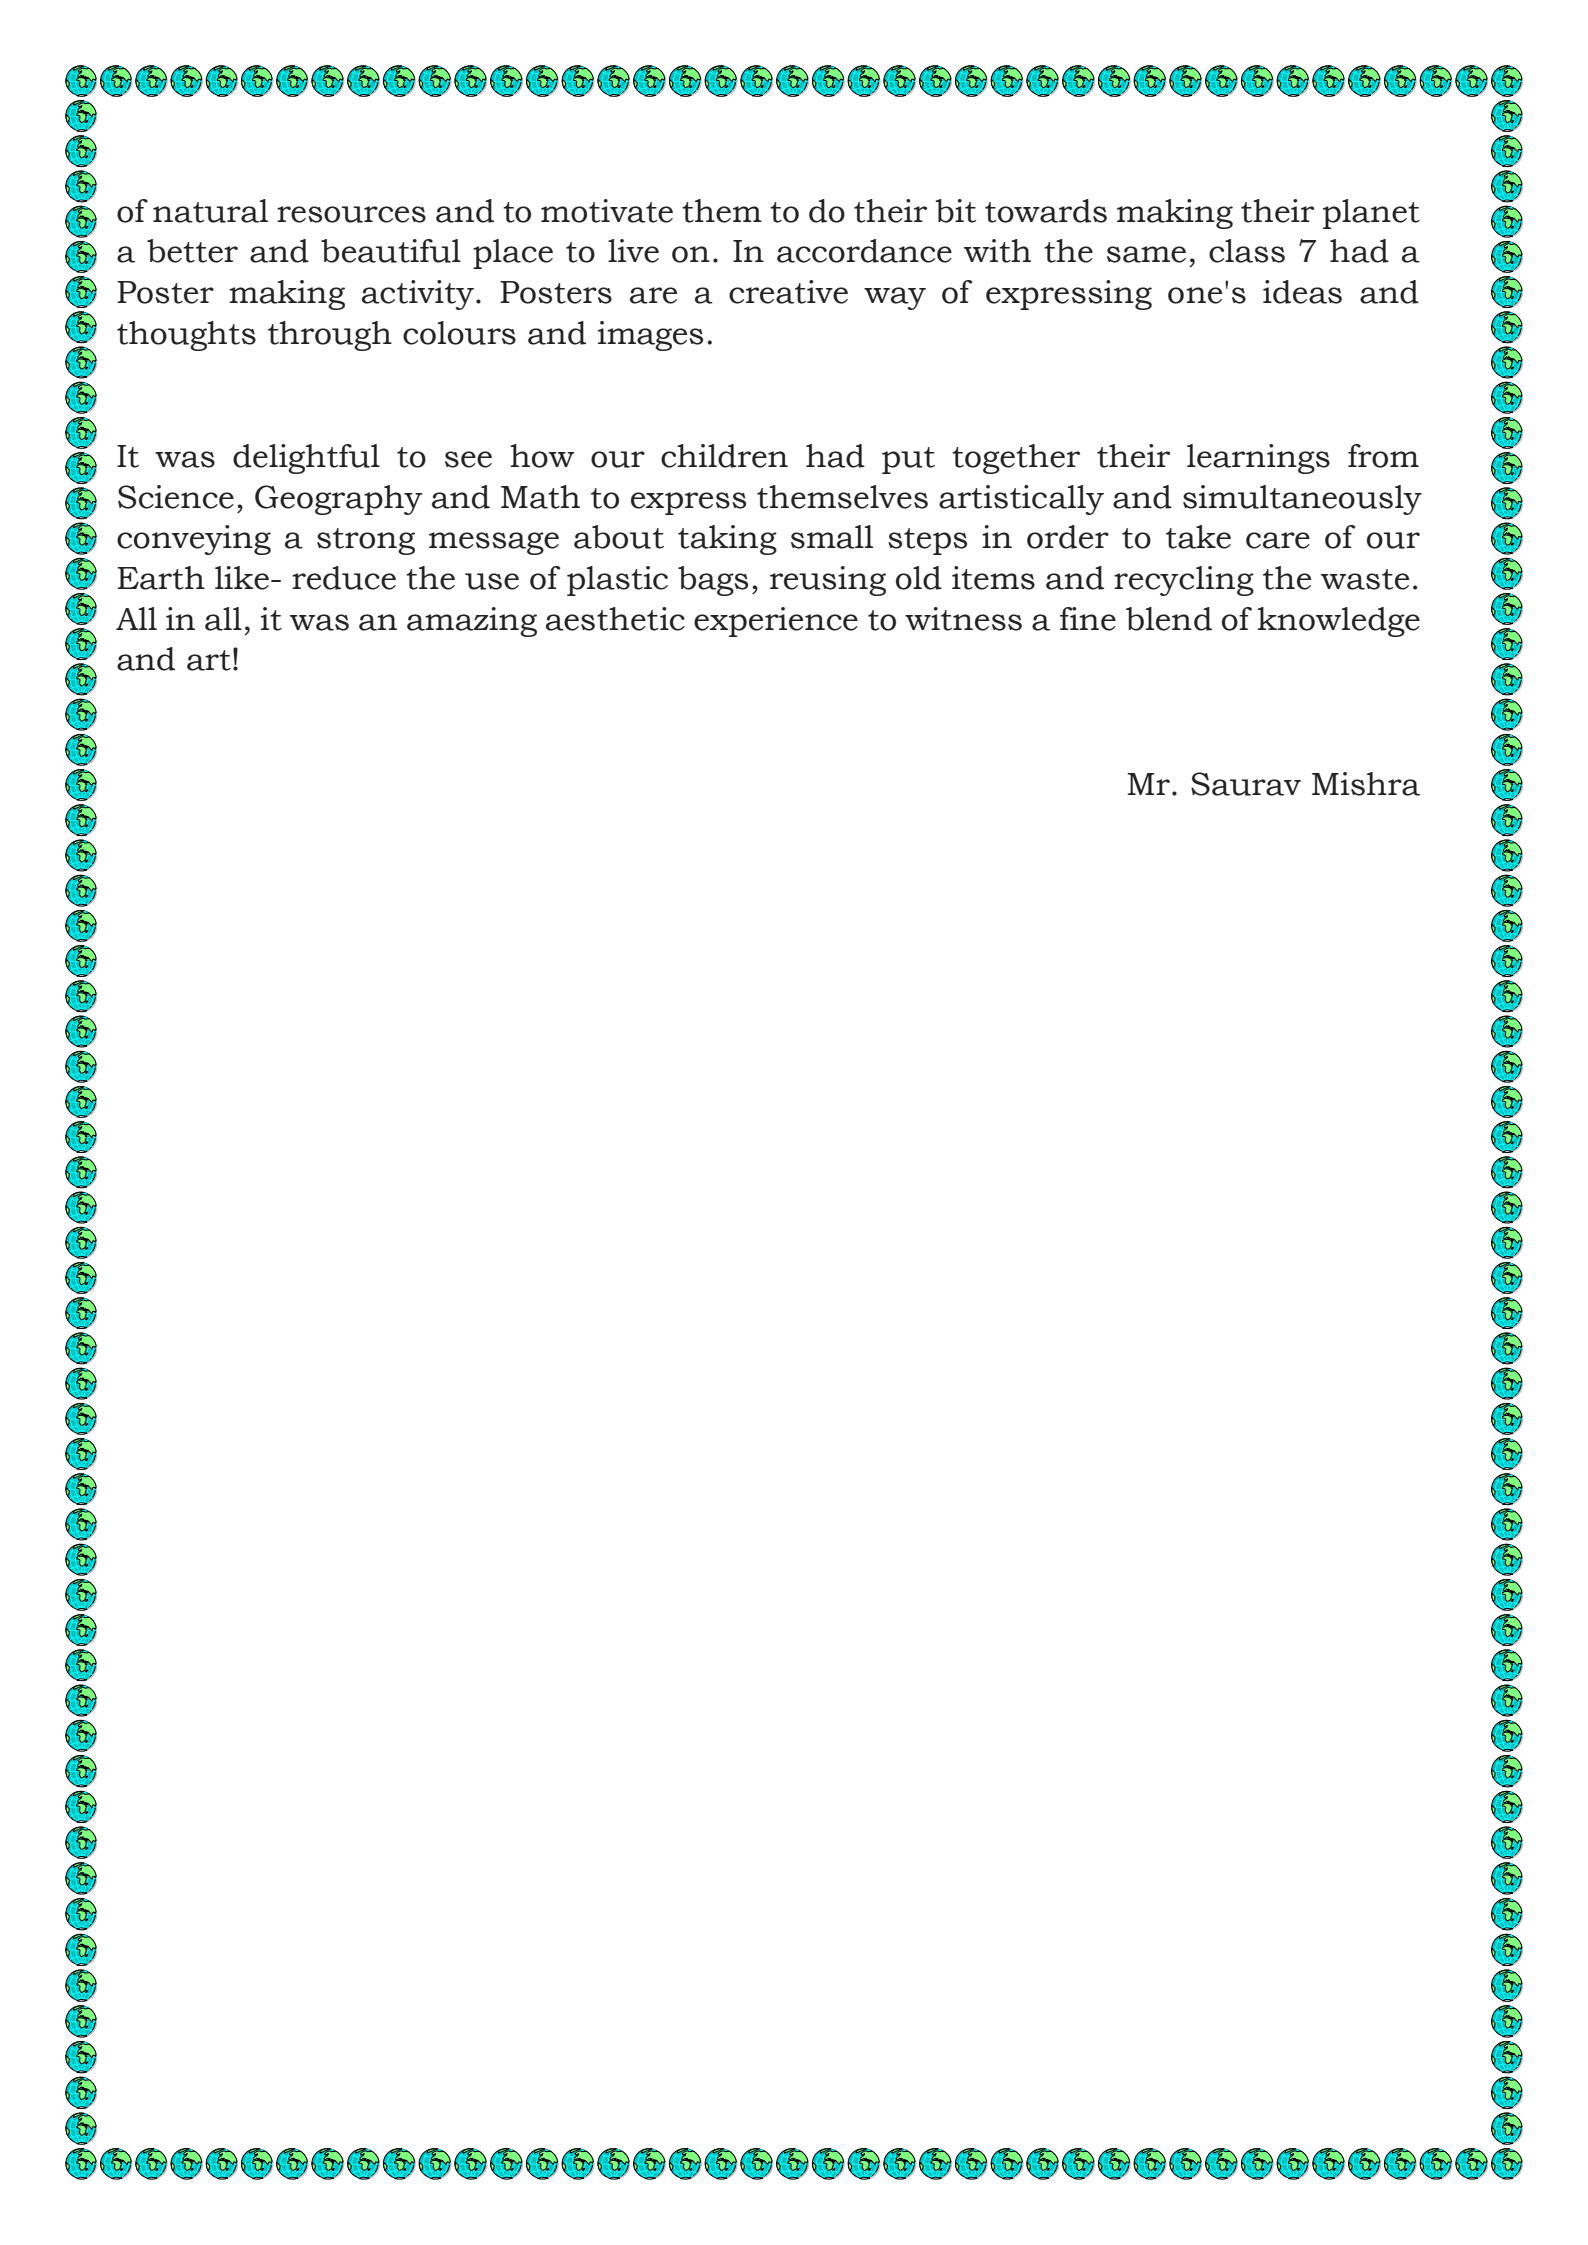

The Bishop's School, Camp has been organising various activities to provide real-life experiences to our students. One such initiative of the NEP is 'bagless days.

' A 'bagless day in school not only provides a platform to encourage students to participate in extra-curricular activities but also is an attempt to provide hands-on learning experience for better understanding.

On Saturday, the 15th of April 2023, the second bagless day was organised for the students of classes 6 to 8. On the occasion of the Earth Day, an array of creative Art activities was organized with a view to sensitize the children about the conservation

of natural resources and to motivate them to do their bit towards making their planet a better and beautiful place to live on. In accordance with the same, class 7 had a Poster making activity. Posters are a creative way of expressing one's ideas and thoughts through colours and images.

It was delightful to see how our children had put together their learnings from Science, Geography and Math to express themselves artistically and simultaneously conveying a strong message about taking small steps in order to take care of our Earth like- reduce the use of plastic bags, reusing old items and recycling the waste. All in all, it was an amazing aesthetic experience to witness a fine blend of knowledge and art!
