

THE BISHOP'S SCHOOL, CAMP

JUNIOR SECTION

CLASS 5 - PICNIC- 2023-2024

"A Picnic" is a joyous occasion for everyone irrespective of their age, a day every student eagerly awaits the whole year. This year on the 14th of October 2023, the students of class 5 of the Junior Section were taken to "Magic Mountain" in Lonavala which is an hours drive from The Bishop's School,

Camp .We thank our principal and our headmistress for arranging such a memorable and a fantabulous day out for the students of class 5.

The children of all 5 sections along with the class teachers and subject teachers were taken in luxury buses .We left school at 8 a.m. and reached our destination at around 10:00 a.m. In the bus the students had a good time dancing and singing. They were also served snacks at regular intervals.

The top attractions at the amusement park was the splash bar, cup and saucer ride, dashing cars and much more. The park offers more than 29 international rides including India's tallest rides. It was an amazing experience and games were superlatively thrilling for the children. The children of class 5 had a great time exploring the rides which were age appropriate that brought a smile to their faces.

Children enjoyed all the different rides until lunchtime. During lunch the children and staff were served with lip smacking delicious food, which was enjoyed by everyone.

All the students enjoyed themselves. For most of the children it was their first time visiting an amusement park so it was a great experience. Children spent quality time with their friends to experience togetherness and happiness. The wonderful memories the children made together will live in their hearts forever.

The fun moments of this day will always be cherished in our hearts and the special day ended on a happy note. We started our home-ward journey back to school in the evening by 4 p.m and reached school safely. The joy and excitement of the school picnic provided all of us a great opportunity to cherish wonderful experiences and it contributed significantly to the children's personal development.

Mrs.M.James

Asst. Teacher-Class 5
