

THE BISHOP'S SCHOOL, CAMP PRE-PRIMARY SECTION

Report on **STORYTELLING**

"The best way to teach children is by telling a story"

Story telling is an interactive art of using words and actions to reveal the elements and images of a story, while encouraging our little listener's imagination.

There are various advantages of listening to a story for pre-schoolers.

It develops imagination, language and emotions. Stories also introduce children to a lot of new vocabulary.

The story telling session for the Pre-Primary Section was conducted by Mrs. Sharanya Sriram who is an excellent story teller and illustrator since 2016. Mrs Sriram used vocalization, physical movement and gesture to present her story. Ma'am used different rhymes which entertained and attracted the little children. Ma'am, asked the children direct questions which kept them engaged and encouraged them to answer.

Rhymes like "Wheels Of The Bus " and "Say Hello To You" sustained the children's attention.

The story 'Ella the Elephant' was then narrated using puppets. The children were engrossed in listening to the story and loved the animal puppets.

Mrs. Sriram used a lot of dialogues and even sounds to surprise the children during the story.

Ma'am ended the session by playing different games like 'Scavenger Hunt' and 'Identify the Animal', with the children.

It was a very interesting session and the children adorned smiles throughout the session.

Mrs. T. Samuel
Assistant Teacher
