

REPORT ON INTER- CLASS ELOCUTION COMPETITION (CLASSES UKG TO 3)

“Poetry is an emotion that has found its thought and the thought has found words.” Robert Frost

Elocution refers to one's capacity of communicating with others, with proper speech and expression. Parents want their children to possess good communication skills. Keeping this in mind, our school conducts the Inter-Class English Elocution Competition; where every student in class is trained to face the audience with confidence and recite their poems with correct diction, clarity and pronunciation.

A healthy competitive spirit could be seen on the faces of all the students of Classes UKG to 3 as they marched to the hall. The children competing in the Individual Level category showed confidence and rendered the poems with enthusiasm and expression.

This was followed by the Group Level competition in which the entire class recited their poems to perfection.

Winning the competition is a matter of pride not only for individual participants but also for the classes that won. This competition has definitely enabled our students to enhance their oratory skills.
