

## THE BISHOP'S SCHOOL, CAMP JUNIOR SECTION

A report on the Reading Workshop organised for the parents of Classes 1 & 2 (Both Sessions)

“Books make great gifts because they have a whole world inside of them.”

Reading is a fundamental skill that lays the foundation for a child's academic success and lifelong learning journey. To inculcate a reading habit among the children, an enlightening workshop was conducted for the parents on Monday 22<sup>nd</sup> April 2024.

Ma'am accentuated on the benefits of reading for children at a young age. She highlighted the importance of reading as it can help children develop language, imagination and creativity, empathy, and social skills, to have cognitive development, to help them achieve academic success and to reduce their stress levels.

Throughout the workshop, ma'am highlighted the need for a reading culture to exist at home and encouraged parents to follow regular reading practice, to be a role model for their children, to create a reading friendly environment and to celebrate reading achievements.

Mrs Sriram suggested a few age-appropriate story books for the children and informed about the various worksheets available on different websites. The workshop ended with a Question-and-Answer session, and we are sure that parents took back with them some extremely valuable and significant information.
