

THE BISHOPS CO-ED SCHOOL, UNDRI
REPORT ON CLASS PICNIC TO SUNNY'S WORLD-2022-2023
CLASSES I - III

"Adventure is worthwhile in itself". This quote surely fits the thrill and fun of the picnic that was organized for the students of Classes I-III from 1st February-3rd February 2023. The picnic was organized at Sunny's World, a resort and adventure park located in Sus Gaon. The excitement and happiness of the students had no limits.

Sunny's World is a resort and adventure park spread across a magnanimous 100 acres amidst nature. It is a different world in itself. Surrounded by the magnificent hills of Pune, the resort has a mesmerizing view and lots of adventurous activities like Zip-lining, rock climbing, obstacle courses, grappling and much more.

The students reported to school by 7:45 in the morning all geared up for a busy yet fun day. After attendance, Mrs. Melissa Fernandes, the Junior School Supervisor led us in a word of prayer. The entire team of teachers and students, with the help of the adventure park volunteers left the campus around 8 am on the buses organized for them.

The students were served light snacks on the bus journey to the park. Upon reaching their destination they had a proper filling breakfast which gave them the energy required for the activities planned ahead.

The students were then separated into different groups who were escorted by the volunteers of the adventure park. The volunteers took charge of the various groups of students and took them for numerous activities and ensured that each student participated in everything. The students enjoyed themselves in several sports such as rock climbing, archery, target practice, jumping on the trampoline, the bubble ball, mini water hand rowing and obstacle course.

Once the students had exhausted their energy, they were taken for a scrumptious lunch. They were then given a little time to enjoy free play. The picnic ended with the students dancing followed by a demonstration of the zip-line, sling-shot, ATV ride and the cycle on a cable done by professionals.

The children enjoyed themselves so much that they didn't realize when the day got over. After a day well spent at the park, the students were then lined up according to their groups and were given a small snack by the volunteers for the bus journey back to school.

Though exhausted, their enthusiasm remained throughout the journey back to school. The students returned to school excited to tell their parents all about their day at the park. Memories of this day will

always hold a cozy corner in every child's heart. They will look forward to another adventurous picnic with the same eagerness and enthusiasm.
