

THE BISHOP'S CO-ED SCHOOL, UNDRI
REPORT ON PHOTOGRAPHY CLUB ACTIVITY

The Bishop's School, Undri organized the Photography Club to provide a supportive environment for students interested in photography to share their creativity, knowledge, passion for photography and to improve their skills under the guidance of our guest faculty Mr Mrugank Kher.

It involves students who have active interest in Digital photography and an appreciation of what photography can express. The first session of the club was conducted on 30th August 2022. Till date, 6 sessions have been conducted by our guest faculty. The members of this club gather on a pre-allotted date in the Activity period and work on polishing their skills to creatively express themselves through the lens of a camera.

The session was divided into theory and practical, each for a duration of half an hour. The theory class was conducted in the Computer Lab after which the students were accompanied by the guest faculty as well as the teachers in charge to the stilt area to click photographs of different objects around them. During theory class, the students were taught in detail about the following:

- Camera
- Exposure
- Lens
- Rule of Thirds
- Leading in Lines.

During practical, the students applied their knowledge of theory while clicking the photographs.

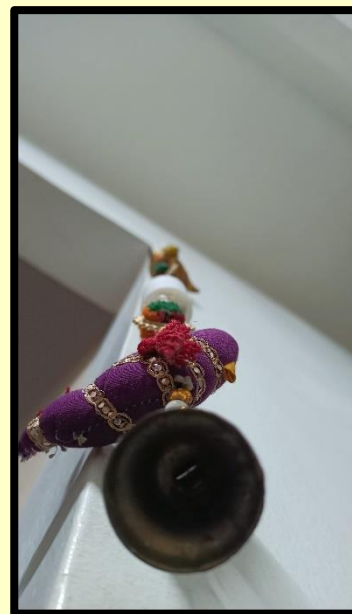

Students clicking photographs under the guidance of Mr Mrugank Kher.

GLIMPSE OF OUR STUDENTS' WORK

Photographs clicked by VARAD SARODE (CLASS - 10A)

Photographs clicked by BHAVYA DHOKA (CLASS- 7B)
