

THE BISHOP'S CO-ED SCHOOL, UNDRI
REPORT ON THEME BASED ACTIVITY FOR THE PRE-PRIMARY SECTION
THEME - OUR LITTLE COMMUNITY HELPERS

"The way to achieve happiness is to help others".

Community helpers are like real life superheroes, who make our neighborhoods safer, happier, and better. They are people who do important jobs to help everyone in the community, which makes it a wonderful place to live.

The activity 'Community Helpers' was conducted for Classes Nursery, LKG and UKG on 13th October 2023. The main aim of the activity was to help children understand the importance of community helpers and their significant role in our society and what better way to teach them through a hands-on activity.

Hence the students of Nursery got an opportunity to meet the unsung heroes of communication and also interacted with them. They understood the role of a postman in today's time, and their essential functions including delivering mail and packages to people ensuring accurate and timely delivery.

The students of LKG learnt about the role and responsibilities of a Chef. Cooking is like a magical experience in the kitchen and Chefs are the magicians who create delicious meals. To recreate the same in class, the students of LKG were asked to make sandwiches, under the guidance of their teachers. They prepared some delicious vegetable and cheese sandwiches and enjoyed this treat. Having learnt to make a sandwich on their own and then tasting the fruit of their labour was a wonderful experience for the children.

The students of UKG learnt about the role of a cobbler in our community. The teachers explained the functions of a cobbler and the children also got an opportunity to meet and interact with a real cobbler in school and observe him work before them. Through this activity the children gained a hands-on experience as the cobbler demonstrated his work using different tools. In class children were taught to put laces on to colourful shoe cutouts made by the teacher. This wonderful activity aided the children to develop fine motor skills, to foster independence and ensure safety.

In conclusion, teaching young children about 'Community Helpers' is a vital part of their education. As educators and parents, it is our duty to foster this awareness and appreciation, ensuring that the youngest members of our society are well prepared to become active and responsible members of the community in the future.
